

A 4 SVCS in Singapore, provides the most comprehensive protective treatment Rug Guard & Scotch Guard for your carpets & material which ensures a barrier between your carpets & material allowing for a dirt & stain free protection coating for your rugs, sofas & other household items which will enhance it & extend its life span making it last longer which will minimize the cleaning, washing & maintenance of the item which will help you save money & time.

**Scotchguard** A professional spray-treatment with Carpet & Fabric Protector provides a barrier that makes it difficult for dirt particles to cling to carpet & fabric fibers. Routine vacuuming becomes more effective. Your carpet & upholstery looks cleaner longer & a cleaner carpet or sofa means less wear & a brighter appearance. With this long lasting barrier on your carpet & sofa, most spills can be easily cleaned up. A chemical treatment which resists soiling and helps prevent water based spots and spills from becoming hard to remove stains.

#### **Thoroughly tested**

This newest "Scotchguard" Protector is one of a family of "Scotchguard" products that have been developed over the last 25 years. It is backed by the same meticulous quality standards that have made the name "Scotchguard" synonymous with fabric protection. Keeps your freshly cleaned carpeting & sofa looking new longer. Since carpets & upholstery treated with Carpet & fabric protector looks clean longer & time in between cleanings can be extended. Dry soil is held loosely between the treated carpet & fabric fibers & can be easily removed with simple vacuuming. Routine cleaning and spotting becomes more effective, and most spills can be quickly removed. "Scotchguard" protection will last even under heavy traffic and regular vacuuming.

#### **Easily applied**

New "Scotchguard" Carpet & Upholstery Protector can be quickly and easily applied with our selection of quality pump-up and electric sprayers by professional. No complicated time-consuming procedures are required. In fact it takes only one quarter of the time normally required for rotary shampooing to provide you and your customers carpets & fabric with this lasting protection.

#### **Just how does "Scotchguard" protector work?**

Carpet & Upholstery Protector has unique fluorochemical properties that make it incompatible with dust, dirt and grime. This protective fluorochemical barrier helps prevent dry soil, oil and water based soils from marring ones carpet's appearance because the "Scotchguard" protection helps keep these soiling agents from penetrating the carpet fibers.

#### **What kinds of carpeting?**

"Scotchguard" Carpet Protector will provide protection when sprayed on most types of carpeting including Persian, Oriental, silk, nylon, polyester, acrylic, & wool.

#### **Caring for treated carpet**

Regular vacuuming will help keep your "Scotchguard" treated carpeting bright and attractive. Daily vacuuming of traffic areas will help prevent soil build-up below the surface where it tends to abrade the carpet fibers. And vacuuming will be more effective on all types of carpeting including shags, cut pile, looped pile, and sculptured patterns. As you can see from the unretouched picture, vacuuming will remove far more dirt from a "Scotchguard treated carpet than from an untreated carpet.

#### **When spills happen**

"Scotchguard" Carpet Protector helps to prevent spots and spills from becoming hard-to-remove stains. On carpets & fabric treated with "Scotchguard" Carpet & Upholstery Protector most spills can be easily cleaned up
